SO HOW DOES THIS DINNER THING WORK?

At 'Diggers Vegie Kitchen' we aim to offer you a unique, enlightening, enchanting and healthy dining experience. We use wholesome, fresh, mostly organic and local, plant based foods to create a delicious three course feast for you to enjoy. It has been said that many plant foods stimulate production of a neuro-transmitter, serotonin, which is responsible for making you happy so, as well as feeding you, we will also enhance your mood! And the more plant foods you eat, the longer you live, so live long and happy with us!!

Every week, we are stimulated by a different theme and base our feast on that theme. After you have been seated in our restaurant one of our wait-staff will let you know what this week's theme is, as well as take your drink order.
And after that, your food will start arriving at your table!!

You do not have to make any decisions, we have taken care of all of that, just sit back and the food will appear..... All you have to do is eat!

Young children?

We have thought about that too and can offer a few items that your children will enjoy. Please ask our friendly wait-staff what's on the stove for the littlies.

Please let us know if you have any food allergies or intolerances.
That about covers it.... Let the feast begin!!

Please note: Our kitchen facility is not a gluten, nut or soy free environment.
24 Hours notice is required to cater for other **Dietary Requirements**.

Thank you 😊
